

May 26, 2021

With FlamencoIP we have already taken the first step towards a digital nurse call system that supports nursing staff, helps patients and simplifies organisation. With FlamencoIP+ we're going one step further: As a communication and coordination platform in hospitals, the new nurse call system leverages the potential of digitisation and now brings full IP right into the patient's room.

Find out more at the online event of the [Arab Health 2021 in Dubai](#), for instance how to convert your nurse call system to an IP solution step by step in the future. We will be presenting our integrative, IP-call system – **FLAMENCO/IP+**,
