# User instructions for your nurse call system

To raise a call:

All red buttons or operating elements of your nurse call system are used for raising calls.
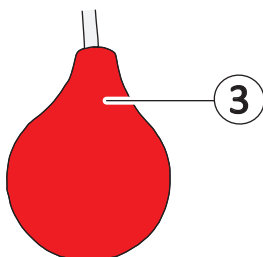

**If you need help:**

• press a red call button [1],

• pull a red call cord [2]

• or squeeze a red call ball [3].

The symbol on the call button [1] lights up brightly to confirm your call.

Nursing staff comes to you or speaks to you via the loudspeaker [4].

You can answer directly without pressing another button.

Switching the light on and off:

• Press the yellow light button [5]. In this case, no call is raised!
