User instructions for your nurse call system

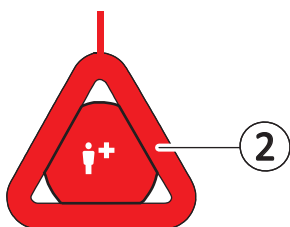

To raise a call:

All red buttons or operating elements of your nurse call system are used for raising calls.

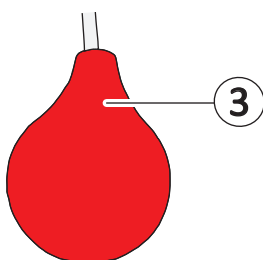

If you need help:

- press a red call button [1],

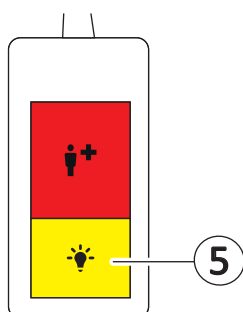

- pull a red call cord [2]

- or squeeze a red call ball [3].

The symbol on the call button [1] lights up brightly to confirm your call. Nursing staff comes to you.

Switching the light on and off:

- Press the yellow light button [5].
In this case, no call is raised!
